

DECLARATION OF CONFORMITY FOR USE IN HYGIENIC ENVIRONMENTS

We hereby declare that the **d-flexx flexible barrier systems**, manufactured by **Dancop A/S**, are suitable for use in **food production facilities, beverage-related environments, and other hygiene-sensitive areas**.

The materials used in the production of these barriers include certified polyethylene compounds such as **Borealis FT5230**, a material approved for food contact applications. According to the **Borealis Declaration of Compliance**, FT5230 complies with:

- **EU Regulation (EU) No. 10/2011** on plastic materials and articles intended to come into contact with food,
- **Framework Regulation (EC) No. 1935/2004**, and
- **REACH Regulation (EC) No. 1907 /2006**, including absence of substances from the **SVHC Candidate List**.

These materials are:

- Free from toxic or harmful substances,
- Non-corrosive and chemically stable,
- Designed to withstand cleaning procedures typical in hygienic environments.

All d-flexx products are manufactured under strict quality controls to ensure suitability for environments that demand high levels of **cleanliness, safety, and compliance with food industry standards**.

This certificate confirms that:

- The materials used are **safe for indirect contact with food and beverages**,
- d-flexx barriers are **suitable for use in food production areas**,
- All components meet the necessary **hygiene and regulatory safety standards**.
