Indoor/outdoor use

Corosion free

Scratch free

The d-flexx SIERRA system is designed to safeguard your gates, personnel, and infrastructure with unparalleled efficiency. Its modular and customizable design ensures it adapts seamlessly to individual requirements and various door sizes, delivering a tailored solution for every workspace.

d-flexx - Quality You Can Count On

- SIERRA offers high Stability and Durability. Built with impact-resistant materials that absorb shocks, reducing repair costs and extending the lifespan of your gates.
- Protects personnel, gates, and infrastructure from damage caused by uncontrolled movements.
- Includes a gate restrictor to prevent damage and ensure controlled, reliable operation.
- No need for complex structural changes – SIERRA is quick and hassle-free to install.

Choose SIERRA for superior protection, cost savings, and costly gate repairs and preventing structural damage.
